

## **Flexible Picture Systems Introduces the Newest Addition to the Image AnyPlace Product Line**

**Toronto, ON—(October 14<sup>th</sup>, 2009)** — Flexible Picture Systems (FPS) proudly introduces the Image AnyPlace-200, the newest member of the popular Image AnyPlace product line of Video/Graphics Scalers with Geometry Correction and Edge Blending.

Image AnyPlace-200 (IA-200) enables AV Professionals to correct for off-axis projector placement (up to 40 degrees H & V) and to project onto flat, curved, cylindrical, spherical and irregular surfaces. With pixel accurate 4-Corner Keystone Correction and Superior Edge Blending, this product is ideal for 3D & projector stacking applications. New features include:

- High resolution digital inputs - HDMI (with HDCP), Dual-Link DVI, and optional HD-SDI
- High resolution digital outputs – HDMI (with HDCP) and Dual-Link DVI
- High resolution support - 1080p, 1900x1200 and 2048x1080
- Additional control functionality – Ethernet, USB and RS-232

The Image AnyPlace product line is well known in the PRO-AV marketplace worldwide, and is currently in use in Places of Worship, Lecture Halls, Staging and Special Events, Curved and Domed Screens, Advertising Displays, Edge Blending on Flat/Curved Screens, and Projection Walls. Image AnyPlace products are sold direct to dealers in North America and through distributors internationally.

“The original Image AnyPlace products were very successful in bringing projector independent Geometry and Edge Blending control to the PRO-AV market,” said Steve Wood, President and CEO of Flexible Picture Systems. “The enhancements of the IA-200 will allow us to reach new levels of unique applications, meeting the changing needs of PRO-AV installers.”

FPS demonstrated the Image AnyPlace-200 at InfoComm 2009, and is now shipping to consumers around the world. For more information please visit [www.flexiblepicturesystems.com](http://www.flexiblepicturesystems.com)

**About Flexible Picture Systems:** Flexible Picture Systems is a manufacturing company in the business of providing high-end video and audio products for the professional AV and high-end Home Theater markets. Headquartered in Richmond Hill, Ontario, FPS is the exclusive manufacturer and source of the Image AnyPlace brand of geometry correcting/edge blending switcher/scalers.
